

Donut series

Designed by Michael H. Nielsen, Denmark

Donut is a rechargeable outdoor lamp designed by Michael H. Nielsen. The elegant design is inspired by the shape of the famous American cake, and the concept is to create a mindful lamp with a clear function and practical aesthetics. Donut can be switched on and off with a quick hand movement and provides up to 16 hours of light when fully charged.

Meet the designer

My style is characterized by keeping the focus on the detail and "edge" that separates my designs from the crowd. One of my biggest influences is to register how much diversity there is among people and try to meet the very different needs that it creates. I've always been fascinated by the craftsmanship and the interaction between craftsman and designer. Good design is what gives meaning and value to the people who use it.
