

Reflection series

Designed by Asger Risborg Jakobsen, Denmark

Born with the idea and aspiration to create something simple, elegant and timeless that embraces and highlights the basic features of a lamp, namely the light source and the shade, Reflection came to life. The designer behind, Asger Risborg Jakobsen, decided to bring forth and separate the two basic components from one another, giving a beautiful reflection and play between the shade and the soft light source. A beautiful design with a timeless and still lively feel.

Meet the designer

The Danish designer and Medical student, Asger Risborg Jakobsen, is inspired by the complexity and still awing simplicity of nature. When designing, he's always breaking his ideas down, leaving room for only the essentials. Like function, beauty, character and craft, and making leave a powerful, but simple impression. For him, aiming towards simplicity means he can create beautiful long-lasting designs reflected and affected by their surroundings.
