

PEBBLE RUG

MARGRETHE ODGAARD ON THE DESIGN "Pebble Rug is inspired by the sensuous feeling of a pebbled beach with its diverse and tactile surface, inviting you to take off your shoes and walk across it barefooted. With a handwoven structure that references fashion textiles, the Pebble Rug plays with the contrasting materials of its soft, woolen loops, sitting atop a sturdy canvas base in cooling jute yarn. Pebble Rug brings a new perspective to any space through its woolen loops, popping up from the ground like sprouts in a bed of moss, joined by the distinct woven texture of its surface."

DESCRIPTION

Pebble Rug has a diverse and tactile surface, inspired by the sensuous feeling of walking across a pebbled beach. With a handwoven structure, Pebble Rug contrasts the materials of its soft, woolen loops with its sturdy canvas base in a cooling jute yarn. Pebble Rug has a distinct and modern woven texture for any hospitality setting, lobby, hotel space or co-working area.

PRODUCTION PROCESS

Pebble Rug is produced by combining the hand loom techniques of loop pile weaves and flat weaves. To create the loop pile pattern that gives Pebble Rug its tactile structure, the thick wool fiber yarn is wrapped

around a special rod during weaving for an even and precise loop effect. This special handloom technique integrates the loop piles harmoniously into the flatweave base of the rug, created from jute fibers.

MATERIAL

Pebble Rug is hand-woven from 60% New Zealand wool and 40% jute.

The base of the Pebble Rug is made in jute. Being a plant-based material, the color of jute will vary according to its place of origin, harvest, weather conditions and more. This means that the Pebble Rug can have slight color variations from one rug to the other as a result of the inherent characteristics of jute, enhancing the natural sentiment of the Pebble Rug.

The rug comes with a canvas backing pasted with synthetic latex which ensures that the rug lays smoothly on the floor.

Please note that all sizes of the Pebble Rug have a sizing toleration of $\pm 2\%$, meaning that the dimensions of the rug can differ by a maximum of 2%.

CLEANING AND CARE

For general care of the rug, we recommend gentle vacuum cleaning on a regular basis. For cleaning of stains or spots, we recommend professional dry cleaning. Avoid cleaning with water, as this will damage the product.
